

**Manufacturer’s Certification Statement for ChamberDoor Storm Doors that are Eligible Building Envelope Components under Section 25C of the Internal Revenue Code as amended by the American Recovery and Reinvestment Act of 2009.**

AluminArt Products Limited located at 1 Summerlea Road, Brampton, Ontario, Canada, is the manufacturer of ChamberDoor storm doors.

This manufacturer’s certification statement provides the documentation required to receive an energy tax credit for ChamberDoor storm doors under Section 25C of the Internal Revenue Code, as amended by the American Recovery and Reinvestment Act of 2009.

Based on Section 25C of the Internal Revenue Code as amended by the American Recovery and Reinvestment Act of 2009, as well as Section 4.01 of IRS Notice 2009-53, a storm door is an Eligible Building Envelope Component that qualifies for the energy tax credit when in combination with the exterior door over which it is installed, has a U-factor and Solar Heat Gain Coefficient (SHGC) of 0.30 or below, and meets the prescriptive criteria for such component established by the International Energy Conservation Code (IECC).

Based on these criteria, AluminArt Products Limited certifies that the following storm door models meet these criteria when installed over certain classes of exterior doors.

Qualifying Chamberdoor Storm Door models:

**Extruded Aluminum Construction**

Arlington Fullview	Dimensions	National 2L	Regal 2L
Astra LX 3L	Elite	National 3L	Regal Deluxe 2L
Classic 2L Midview	Fiera 2L	Northern 2L	Regal Deluxe Fullview
Classic 2L Fullview	Fiera 3L	Northern 3L	Regal Fullview
Clearvue 2L Fullview	Fiera 3L Artglass	Northern 3L Artglass	Titan
Clearvue Fullview	Grandview	Provincial 2L	Visions

**Wood Core Construction**

Bonair	Emerald Bay	Newport	Traditional
Ellesmere	Hampton	Oaklawn	York

The following tables identify the classes of exterior doors over which ChamberDoor storm doors may be installed in order to qualify for the energy tax credit.

## ALUMINUM STORM DOORS
